Austria

Welcome message

Dear colleagues,

It is our great pleasure to invite you to the nOH (neurogenic orthostatic hypotension) Symposium of the Otto Loewi Society taking place on December 5th, 2024 in Innsbruck and online.

The objective of the symposium is to continue the mission initiated by Prof. Gregor Wenning many years ago, which is to foster research and education on multiple system atrophy (MSA) and other autonomic nervous system disorders.

We believe that the program is highly attractive, offering a broad overview on the most recent MSA and nOH research.

The symposium will be of interest for doctors from private practices and clinics, and the MSA community worldwide.

We look forward to inspiring talks and lively discussions,

Assoc. Prof. Dr. Alessandra Fanciulli PhD

Speakers

Welcome

Univ.-Prof. Dr. Stefan Kiechl

Director of the Department of Neurology
Medical University of Innsbruck

Prim. Assoc. Prof. PD Dr. Walter Struhal

OLG President

Talks

Em. o.Univ.-Prof. Dr. Werner Poewe
